bitFlyer, Inc.

We're handling Stellar Lumens (XLM) and NEM (XEM)!

bitFlyer, Inc. ("bitFlyer"; HQ: Minato-ku, Tokyo; President: Kimihiro Mine), which operates Japan's No. 1*¹ crypto assets exchange by Bitcoin trading volume, is now handling Stellar Lumens and NEM on our Buy/Sell service as of Thursday, August 6, 2020.

About Stellar Lumens (XLM)

Stellar Lumens is a crypto asset and distributed ledger developed by the Stellar Development Foundation. The goal of Stellar Lumens is to make financial services accessible to more people by creating a global payment system that is affordable and easy to use.

About NEM (XEM)

NEM is a crypto asset developed for the New Economy Movement network. The goal of NEM is to establish a new economic framework based on the principles of decentralization, economic freedom, and equality, rather than the existing frameworks managed by countries and governments.

About bitFlyer, Inc.

bitFlyer was established in 2014 with a mission of "Simplify the world with blockchain." We bring top-class security*² on a global scale to our trading platform for Bitcoin and other crypto assets, where we have maintained the largest Bitcoin trade volume in Japan. We're also the only crypto assets exchange operator licensed to operate in Japan, the US, and the EU.*³

Service site: <https://bitflyer.com/en-jp>

*¹ bitFlyer had the largest monthly trading volume recorded from January through December of 2019 in Japan (includes net settlement and futures trading) according to JPBitcoin.com.

*² bitFlyer was assessed as having the No. 1 security among the 140 crypto assets exchanges screened by Sscreen in January 2018.

*³ Based on research by bitFlyer as of August 2020.
