

January 26, 2024
bitFlyer, Inc.

Service for Flare (FLR) deposits will be added soon

Dear customer,

Thank you for using bitFlyer.

bitFlyer will add service for deposits of Flare (FLR) from Wednesday, January 31, 2024, approx. 3:00 pm JST. You can start to deposit FLR from that date. For the addition of the deposit function, FLR withdrawals will be terminated from Wednesday, January 31, approx. 11:00 am to 2:00 pm JST. Please ensure to allot a sufficient amount of time for your FLR withdrawals.

About FLR:

- Currency name: Flare
- Ticker Symbol: FLR
- Specifics: FLR is a Ripple-backed crypto asset designed to implement smart contracts on the XRP Ledger, and is developed to interoperate with various blockchains following the concept to “Connect Everything”.

The State Connector feature can be used to securely retrieve various blockchain information, the FAssets feature can be used to provide an environment where smart contracts can be executed on non-smart contract crypto assets, and the Layer Cake feature can be used to improve security and speed when bridging networks. Crypto asset exchange operator bitFlyer Inc. receives a listing support fee from the Flare Foundation, the issuer of FLR.

About bitFlyer, Inc.

bitFlyer was founded in 2014 with the mission to "Simplify the World with Blockchain". The company has developed its crypto asset trading business globally with its sibling companies bitFlyer USA, Inc. and bitFlyer EUROPE S.A., and has achieved the highest customer satisfaction* thanks to the patronage of its customers.

As a crypto asset exchange operator and a type 1 financial instruments trade operator, bitFlyer continues to expand and improve its services and aims to provide a highly liquid crypto asset exchange that satisfies as many customers as possible.

We appreciate your continued support.

Disclaimer (please read carefully):

- Crypto assets are not a legal tender.
- Crypto assets may be used to settle a payment only in the event that the person receiving the payment agrees.
- Buying/selling crypto assets or exchanging them for other crypto assets are transactions which may result in losses incurred from price fluctuations of crypto assets. It is possible that the price of crypto assets declines due to influences from changes in balance of supply and demand, trends on prices of goods, currencies, and other markets, as well as changes in situation related to crypto assets.
- When making purchases or sales of crypto assets on Buy/Sell, or exchanging them for other crypto assets, customers bear the spread. The spread is the difference between the purchase and selling prices. The fees incurred when buying or selling crypto assets, exchanging them for other crypto assets or over-the-counter crypto asset derivatives as well as the calculation methods for the corresponding fees can be found on our [Fees and Taxes](#) page.
- You should thoroughly read and understand all of our documents that require user agreement. Trade at your own risk and judgment.
