

The Polygon Ecosystem Token (POL) Is Now Listed

bitFlyer, Inc. (Head office: Minato-ku, Tokyo; Representative Director: Yuzo Kano; hereinafter referred to as “bitFlyer”) has listed the Ethereum-based Polygon Ecosystem Token (POL) on bitFlyer Buy/Sell as of Monday, October 28th, 2024.

bitFlyer will continue to actively add new crypto assets in order to provide customers with more investment options and opportunities to participate in web3.

Service Start Date

Buy/Sell, deposits and withdrawals: Monday, October 28th, approx. 1:00 pm JST

First recurring purchase on bitFlyer Recurring Buy (at earliest): Tuesday, October 29th

About POL

- Currency name: Polygon Ecosystem Token
- Ticker symbol: POL
- Characteristics: Polygon PoS is a blockchain created to complement the Ethereum blockchain and solve scalability issues including rising fees and slow processing speeds. The Polygon Ecosystem Token (POL) is expected to serve multiple purposes across all chains within the ecosystem, including the use as validator rewards and community funds. By utilizing Polygon Ecosystem Tokens (POL), users can act as validators within the ecosystem, propose improvements, and contribute to the enhancement of the network.

Source: Polygon Labs

Support for MATIC

bitFlyer will continue to support the buying, selling, sending, receiving and Recurring Buy of Ethereum-based Polygon (MATIC) after the listing of POL.

Polygon Labs, the issuer of POL and MATIC, has changed the name of the mainchain (Polygon POS)-based token from MATIC to POL and announced plans to phase out the Ethereum-based MATIC, which is currently listed on bitFlyer services, to replace it with POL in the future. The exact timeline for this transition has not been disclosed, but bitFlyer will share follow-up information as soon as an official announcement is made by Polygon Labs.

Blockchain	Token name	Listed at bitFlyer
Polygon PoS	MATIC ⇒ POL	No
Ethereum	MATIC (ERC-20)	Yes
	POL (ERC-20)	Yes (from Oct 28)

Remark on the POL and MATIC Icons

The icons published by Polygon Labs for POL and MATIC have the same design. To avoid confusion, bitFlyer is displaying POL in black and MATIC in purple, as shown in the below image.

Please Be Aware of the Following:

- The POL and MATIC listed on bitFlyer are Ethereum-based tokens. bitFlyer has not listed the Polygon POS-based tokens at this time.
- bitFlyer does not support transfers of POL and MATIC on Polygon PoS.
- When transferring POL or MATIC into or out of your bitFlyer account, please confirm that Ethereum is selected as the blockchain network.

To celebrate the listing of the Polygon Ecosystem Token (POL) we are launching the following campaign today.

Celebrating the POL(ERC-20) listing!

5 winners
that purchase at least JPY 10,000
during the campaign period get a chance to win

JPY 100,000 worth of **POL**

*Annual trading volume, including contract for difference trading and futures trading, among domestic crypto asset exchange operators from 2016 to 2023.

(This data was aggregated by bitFlyer based on statistical information published by the Japan Virtual and Crypto assets Exchange Association and trading data disclosed by domestic crypto asset exchange operators. For the statistical information from the Japan Virtual and Crypto assets Exchange Association, data from 2018 onwards was referenced.)

Disclaimer (Please read carefully):

- Crypto assets are not a legal tender.
- Crypto assets may be used to settle a payment only in the event that the person receiving the payment agrees.
- Buying/selling crypto assets or exchanging them for other crypto assets are transactions which may result in losses incurred from price fluctuations of crypto assets. It is possible that the price of crypto assets declines due to influences from changes in balance of supply and demand, trends on prices of goods, currencies and other markets, as well as changes in situation related to crypto assets.
- Trading with over-the-counter crypto asset derivatives may cause losses, because their trading price may fluctuate in either way due to influence from changes in balance of supply and demand of over-the-counter crypto asset derivatives on our platform as well as indirect influence from price changes of the crypto assets referred by those over-the-counter crypto asset derivatives.
- Over-the-counter crypto asset derivative trades are trades in which the notional amount, which is the product of the trading price and the open interest volume, can be larger than the amount of the margin deposit. Therefore, the amount of loss incurred may be larger than the amount of margin deposit if the notional amount fluctuates to a greater extent than the amount of margin deposit to your disadvantage due to changes in balance of supply and demand of over-the-counter crypto asset derivatives or price fluctuations of the crypto assets referred by the derivatives.
- The margin deposit size for over-the-counter crypto assets derivatives must be no less than 50% of the notional amount, while the notional amount must be no more than 2 times the margin deposit. (Both for individual customers.) More information can be found on our "[What is bitFlyer Crypto CFD?](#)" page.
- When making purchases or sales of crypto assets on Buy/Sell, or exchanging them for other crypto assets, customers bear the spread. The spread is the difference between the purchase and selling prices. The fees incurred when buying or selling crypto assets, exchanging them for other crypto assets or over-the-counter crypto asset derivatives as well as the calculation methods for the corresponding fees can be found on our "[Fees and Taxes](#)" page.
- Over-the-counter crypto asset derivatives are negotiated transactions between you and bitFlyer, Inc. which is the counterparty for you on those derivatives.
- You should thoroughly read and understand all of our documents that require user agreement. Trade at your own risk and judgment.
