

Changes to Trading Rules and Updates to the Documents Requiring User Agreement (Written Explanation on Over-the-Counter Crypto Asset Derivatives Trading)

In order to reduce trading risks for our customers and ensure market safety, we will implement changes to our Trading Rules and update the Documents Requiring User Agreement (Written Explanation on Over-the-Counter Crypto Asset Derivatives Trading) as of Thursday, May 7th, 2026.

Please see below for details.

The revised documents and before and after comparisons can be reviewed from the provided URLs.

Effective Date

Thursday, May 7th, 2026

Eligible Customers

All customers (individual and corporate)

Applicable Product

bitFlyer Crypto CFD (incl. API)

Changes to Trading Rules

1. Maximum Order Size

Customer Type	Before changes	After changes
Individual	100 BTC	10 BTC
Corporate	100 BTC	40 BTC

2. Maximum Position Size

Customer Type	Before changes	After changes
Individual	500 BTC	50 BTC
Corporate	500 BTC	200 BTC

The maximum position size may be increased up to 500 BTC subject to our prescribed review process. If you wish to do so, please contact us [here](#).

Important Notes

- After the effective date above, we may notify customers to reduce their open positions to within the required limits. Customers who receive such notification must reduce their positions by the specified deadline. Failure to comply may be deemed a violation of our Terms of Use, which could result in suspension of derivative trading orders or account closure, including forced liquidation of positions.
- Positions within the required limits will remain unaffected.
- Orders placed before Thursday, May 7, 2026 that exceed the revised maximum order size will remain valid for 30 days from the order date.
- For conditional orders placed before Thursday, May 7, 2026, if a subsequent order is triggered after the initial condition is met and its order size exceeds the maximum order size applicable on or after Thursday, May 7, 2026, that subsequent order will be automatically canceled.
- Requests to increase the maximum position size are subject to our internal review, which takes into account factors such as account history, trading activity, and credit status. Please note that we are unable to respond to inquiries regarding the outcome of this review.

Thank you for your continued support of bitFlyer.

About the bitFlyer Group

Founded in 2014 with the mission to "Simplify the World with Blockchain", bitFlyer has achieved the No. 1* in Bitcoin trading volume in Japan for nine consecutive years thanks to the patronage of its customers. The company has developed its crypto asset trading business globally with its group companies bitFlyer USA, Inc. and bitFlyer EUROPE S.A. bitFlyer Blockchain, Inc. has developed and is offering its proprietary blockchain platform, Miyabi, which is being utilized as the underlying infrastructure for tokens listed on crypto asset exchanges. Additionally, Custodiem, Inc. is preparing to launch a new crypto custody business, anticipating the increasing demand from institutional investors entering the crypto asset market. By harnessing synergies across the group to expand globally within the web3 ecosystem, the Group is striving to become Asia's leading web3 company.

Official website: <https://bitflyer.com>

*Annual trading volume, including contract for difference trading and futures trading, among domestic crypto asset exchange operators from 2016 to 2024.

(This data was aggregated by bitFlyer based on statistical information published by the Japan Virtual and Crypto assets Exchange Association and trading data disclosed by domestic crypto asset exchange operators. For the statistical information from the Japan Virtual and Crypto assets Exchange Association, data from 2018 onwards was referenced.)

Disclaimer (Please read carefully):

- Crypto assets are not a legal tender.
- Crypto assets may be used to settle a payment only in the event that the person receiving the payment agrees.
- Buying/selling crypto assets or exchanging them for other crypto assets are transactions which may result in losses incurred from price fluctuations of crypto assets. It is possible that the price of crypto assets declines due to influences from changes in balance of supply and demand, trends on prices of goods, currencies and other markets, as well as changes in situation related to crypto assets.
- Trading with over-the-counter crypto asset derivatives may cause losses, because their trading price may fluctuate in either way due to influence from changes in balance of supply and demand of over-the-counter crypto asset derivatives on our platform as well as indirect influence from price changes of the crypto assets referred by those over-the-counter crypto asset derivatives.
- Over-the-counter crypto asset derivative trades are trades in which the notional amount, which is the product of the trading price and the open interest volume, can be larger than the amount of the margin deposit. Therefore, the amount of loss incurred may be larger than the amount of margin deposit if the notional amount fluctuates to a greater extent than the amount of margin deposit to your disadvantage due to changes in balance of supply and demand of over-the-counter crypto asset derivatives or price fluctuations of the crypto assets referred by the derivatives.
- The margin deposit size for over-the-counter crypto assets derivatives must be no less than 50% of the notional amount, while the notional amount must be no more than 2 times the margin deposit. (Both for individual customers.) More information can be found on our "[What is bitFlyer Crypto CFD?](#)" page.
- When making purchases or sales of crypto assets on Buy/Sell, or exchanging them for other crypto assets, customers bear the spread. The spread is the difference between the purchase and selling prices. The fees incurred when buying or selling crypto assets, exchanging them for other crypto assets or over-the-counter crypto asset derivatives as well as the calculation methods for the corresponding fees can be found on our "[Fees and Taxes](#)" page.
- Over-the-counter crypto asset derivatives are negotiated transactions between you and bitFlyer, Inc. which is the counterparty for you on those derivatives.
- You should thoroughly read and understand all of our documents that require user agreement. Trade at your own risk and judgment.
